Angel Community Canal Boat Trust

Summer Residential Project 2018

5 days of activities outside London based on a purpose-built canal boat with our skipper

Suitability: These trips are suitable for all young people including those with special needs. We take up to 12 passengers including at least 2 adult leaders, and we provide an experienced skipper who will be on board at all times.

Activities: On a trip there is plenty of time for everyone to learn to steer the boat, and loads of locks to operate. There are also lots of off-boat activities to enjoy, such as fishing, barbeques, ball games and night walks, and trips to go skating, swimming, to the cinema and even skiing! Other activities and excursions can be organised to fit in round the trip and the young people's needs.

We also offer our B.O.A.T.S. (Boat Operations, Activities and Transferable Skills) course with certificates for all those who successfully complete it. This brings together many specific boating skills and also softer general skills acquired during a few days travelling and living together on Angel.

Location: We travel north from London via Uxbridge towards Berkhamstead and the Chilterns, Milton Keynes, Stoke Bruerne and Braunston in Northamptonshire, and through the countryside in between, picking up groups at convenient places on route.

For the 2018 Summer Project, as a result of funding from BBC Children in Need, we are delighted to be able to offer trips to community groups for £350.00* for up to 12 passengers. This includes substantial contributions to cost of food (self-catering) and off boat activities.

For more information see our website www.angelboat.org.

Any questions, or to book or express interest, or to visit our boat contact Phil, project manager and skipper, on 07970 175 488 or at phil@acct.org.uk

*On occasions further additional funding may be available
